DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1, 2, 5-8, 11, and 12, drawn to method of detecting small quantities of particles by detecting antigen-antibody complexes.

Group II, claims 3 and 4, drawn to method of making a fluid sample that essentially contains particles having a maximum particle size.

Group III, claims 9 and 10, drawn to computer readable program.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I is a method that contacts a sample with a fluid containing antibodies and particles which yields a reaction mixture containing complexes that form a precipitate whereupon a signal is produced and detected to provide detection and quantitation of small quantities of particles present in the sample; Group II is a method of making a fluid sample by separating particles that exceed a certain size requirement so that the particles present in the fluid only contains therein particles having a given maximum particle size; and Group III is a software program incorporated into an analytical device.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

Art Unit: 1641

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
